Raffaella Clivio

Italian, living in The Netherlands, Aerospace Engineer...
...with a big passion:

Abstracts Painting

Raffaella Clivio

“The work of Raffaella Clivio is the collision between the ecstasies of the landscapes and the strength of the colors; between the joy of the nature and the expressive, and sometimes, frightened power of the emotions generated by the nature.

The fusion of all the complex feelings crashing into each other is transferred on the canvas through continuous experimenting techniques and very colorful and full of joy abstracts painting.

Raffaella is an aerospace engineer. Her paintings seem to invite who is observing them carefully to go beyond.

Disjointed spaces and heavy traces are just the story of the infinity space as well as the snapshot of the human being and of the nature around us.

No matter if this is illusion or reality, the dream or the truth, Raffaella's painting fabricates tempo, equilibrium and drive the inspiration.”
